## Ecosystems

**E**cosystems explores the many different environments and their inhabitants found across the globe. This dynamic series introduces readers to the plants, animals, habitats, and climates that make up the world's major ecosystems. Readers will also learn about careers and developments in science and technology that relate to each topic. Vibrant visuals, inspiring activities, and informative facts make up each book in the series.

*"The author presents a vivid description of the climate, seasons, and life..."*
